

# Directions For the Application of Apple Environmental Meth Remover®

It is imperative that all Meth Remediation Specialists know and follow all Federal, State and local Laws pertaining to the chemical use in structures for Methamphetamine Remediation. Appropriate personal protection equipment (PPE) must be worn when both entering and decontaminating a Methamphetamine Contaminated Structure

- Step 1 Product Preparation**  
Remove debris and all porous materials such as carpet, carpet pad, ceiling tiles, insulation, insulated duct work and any other materials required by local or state laws
- Step 2 Dry Clean**  
Remove loose dust and dirt from floors, walls, ceilings and the HVC using HEPA filtered equipment
- Step 3 Product Mixing**  
Mix equal parts of Apple Environmental Meth Remover® parts 1 and 2 in a clean container. The amounts needed will vary based on the level of contamination, humidity, cleanliness of surfaces and types of surfaces that are being decontaminated
- Step 4 Pretreat Property - (optional)**  
*This step should be used for heavily soiled or heavily contaminated properties (refer to the provided Apple Environmental Application Calculator)*  
Apply mixture to all surfaces using foamer or sprayer  
Let stand for 2 hours
- Step 5 Wet Clean**  
Mix equal parts Apple Environmental Meth Remover® parts 1 and 2 in a clean container. Create a diluted mixture of Meth Remover and water to base for washing surfaces. (5:1 - 10:1 ratio depending on the soil load and contamination level)  
Using microfiber scrubber pads or a soft bristle brush, wash all surfaces.  
Extract excess wash water from the floor
- Step 6 Product Application**  
Apply Apple Environmental Meth Remover® solution (equal parts 1 and 2 combined) to all surfaces using a ULF fogger, sprayer or foamer.  
Lightly brush product into all surfaces immediately after application  
Optimal dwell time is 4 hours
- Step 7 Rinse Property**  
Using Clean water rinse all surfaces  
Use extraction equipment if necessary to remove excess water from floors  
Thoroughly rinse all equipment with clean water after use
